

Procedure/Criteria of Selection of TWG Members

1. A roster of experts of different Agriculture related fields will be compiled. Bio-data on the prescribed proforma will be obtained from the scientists working in different educational and Research Institution of the Country.
2. After receiving the project in the PARB, concerned Theme Leader will identify a Panel of six experts. All out efforts will be made to select the experts of the field of specialization. If experts are not available from the roster of experts of PARB, personal knowledge / contacts of the PARB will be used to draw the panel.
3. The member of the TWG should be a serving or retired renowned scientists in the field of the envisaged project.
4. The recommendation of the Theme Leader will be scrutinized at PARB level and then will be put up to the Executive Committee for selection of three members of the TWG from the panel, who will evaluate the project. If three members of the specific field are not available, TWG must comprise of at least two members.
